[results-Nov18.xlsx](#)

Hi Dave,

Yes I don't have any lat/long for those points.

Here is the list from today with the EJ and Impaired Waters information. I'll make the new maps today as well.

Hmm, why is that? Is there no lat/long information the NPDES/ICIS database?

It's probably not worth the time to look up addresses.

Well, I guess I will bring a this list of other facilities to the meeting.

Thanks.

Hi Dave,

From the list of facilities today, here is a list of the facilities that I don't have any locational information for.

I will run the analysis on the remaining facilities.
